Part 1  Basic MILC Program Provisions

1 Handbook Purpose, Availability, and Restrictions

A Purpose

This handbook provides general instructions for administering the MILC program.

B MILC Program Availability

The MILC program is available to producers on dairy operations throughout the U.S., if the dairy operation produces and commercially markets milk during the period October 1, 2007, through September 30, 2012.

C Restrictions

STC’s, COC’s, and representatives and employees thereof, do not have the authority to modify or waive any of the provisions of this handbook unless authorized to do so by DAFP.
A Legislative History

The sources of authority for the MILC program are the:

- Farm Security and Rural Investment Act of 2002 (Pub. L. 107-171) that authorized CCC to make direct monthly payments to dairy producers in the U.S., during the period of December 1, 2001, through September 30, 2005

- Deficit Reduction Act of 2005 (Pub. L. 109-171), Section 1101 that extended the program from October 1, 2005, through September 30, 2007

- U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, (Pub. L. 110-28), Section 9006 that changed the payment rate percentage

- Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246) that authorizes the program through 2012.

B MILC Program Duration

The MILC program is authorized retroactively from December 1, 2007, through September 30, 2012.

C Federal Regulations

Regulations governing the administration of the MILC program are provided in 7 CFR Part 1430, subpart B.

A  Program Administration

Administered under the general supervision of DAFP through PSD, FSA has the primary responsibility, through STC’s and COC’s for administering the MILC program.

B  STC Responsibilities

STC’s shall:

- supervise and monitor the MILC program to ensure that policies and procedures authorized in this handbook are being uniformly followed by County Offices
- take any action required by this handbook that has not been taken by COC
- correct, or require COC to correct, any action taken by COC that is not authorized according to this handbook.

C  COC Responsibilities

COC’s shall:

- administer the MILC program at the county level through CED under STC supervision
- inform producers about the eligibility requirements for MILC payments
- complete and review applicable program forms for completeness and accuracy
- approve or disapprove requests for MILC program benefits according to this handbook
- determine whether the submitted production documentation provides the required information needed for the appropriate payments.

Note: Except for CCC-580’s and any other program documents that CED has a monetary interest, COC may delegate the authority to approve or disapprove CCC-580’s and any other program documents to CED.
3 Administration and Responsibilities (Continued)

D CED Responsibilities

CED’s shall:

- carry out the day-to-day operations of the MILC program according to COC’s determinations and this handbook

- approve or disapprove CCC-580’s, if delegated to do so by COC.

**Note:** Except for CCC-580’s and any other program documents that the Federal and non-Federal County Office employee approving has a monetary interest, CED may delegate the authority to approve or disapprove CCC-580’s and any other program documents to Federal and non-Federal County Office employees.

E Nondiscrimination Responsibilities

STC or COC shall **not**, on the basis of race, color, age, sex, national origin, disability, religion, or marital status, bar any producer from participating in, or otherwise subject any producer to discrimination with respect to any benefits resulting from its approval to participate in the MILC program.

F Outreach Responsibilities

STC and COC shall ensure that MILC program information and awareness is communicated to underrepresented individuals, groups, and communities. Underrepresented individuals, groups, and communities, may include, but are **not** limited to minority, Amish, and Mennonite farmers.

4-9 (Reserved)
10  Dairy Operation Eligibility

A  Eligible Dairy Operation Definition

An eligible dairy operation, for MILC program purposes, is any person or group of persons who, as a single unit as determined by CCC, produce and market milk commercially produced from cows and whose production facilities are located in the U.S.

Note: Each State and County Office shall strictly adhere to and apply this definition to the MILC program in the exact same manner applied for the DMLA-III program in your State with no variation, according to paragraph 52.

B  Dairy Operation Eligibility for Payment

To be eligible to receive MILC payments, a dairy operation must:

- have produced milk in the U.S. and commercially marketed the milk produced anytime during the period of October 1, 2007, through September 30, 2012

- enter into CCC-580 with CCC agreeing to the prescribed terms and conditions during the sign-up period

- provide production evidence of monthly milk marketings to the local FSA County Office

- include milk marketings from all persons that were involved in the dairy operation during the contract period

- actively be in the business of producing and marketing agricultural products at the time CCC-580 is signed, except as provided by subparagraph F

- certify compliance with HELC and WC provisions on AD-1026

- certify compliance with AGI requirements on CCC-926

- for any FY or month for which payment is sought, submit CCC-580 before the end of that FY or month, except FY 2009, and according to production start month selection provisions in Part 4

- submit CCC-580 for FY 2009 payments by the month for which payment is first sought, except as provided in Part 4.
10 Dairy Operation Eligibility (Continued)

C Eligible Entities

An eligible dairy operation may include any of the following entities that are engaged in an operation that markets milk commercially in the U.S.:

- an individual that has a beneficial interest in a dairy operation, has a financial risk in the dairy operation, and is a citizen of, or legal resident alien in, the U.S.

- a corporation, partnership, joint operation, estate, association, cooperative, other business enterprise, or other legal entity and, whenever applicable, a State, political subdivision of a State, or any agency thereof, and whose members are a citizen of, or legal resident alien in the U.S.

- Indian tribe of the Indian Self-Determination and Education Assistance Act

- Indian organization or entity chartered under the Indian Reorganization Act

D Foreign Entities

A corporation or other entity shall be ineligible to receive MILC program benefits if more than 10 percent of the beneficial ownership of the entity is held by persons who are not citizens of the U.S., or lawful resident aliens possessing a valid I-551. However, entities that have been determined ineligible for payment because of the foreign person rule may receive the amount of payment that represents the percentage interest of the entity which is owned by U.S. citizens or lawful aliens, according to 1-PL, paragraph 238.

The following foreign person/entity provisions apply to MILC program benefits:

- 7 CFR Part 1400
- 1-PL, Part 3.
E Eligible New Dairy Operations

County Offices shall determine an eligible new dairy operation as any dairy operation purchased or farmed by a producer not affiliated with any dairy operation:

- that received a DMLA-III payment
- with an approved CCC-580 with CCC
- that did not participate in the preceding MILC or MILC Extension programs for FY’s before FY 2008.

Beginning with FY 2008, any additional dairy operation purchased or farmed by a producer affiliated with a dairy operation that has an approved CCC-580:

- is subject to review by FSA to determine legitimacy
- will exist in the MILC program according to State interpretation of a dairy operation used during the previous DMLA programs in the State where the dairy is located.

Eligible new dairy operations may enter into CCC-580 with CCC anytime during the applicable duration of the MILC program application period.

A dairy operation is not considered new if dairy has an existing CCC-580 and does any of the following:

- changes the name of the dairy operation
- changes the ID number of the dairy for tax purposes
- relocates to another State or county
- adds additional shareholders to the dairy operation
- has a spouse, child, or heir take over the dairy operation for a decedent with CCC-580.

F Dairy Operations No Longer Conducting Business

Dairy operations that go out of business after October 1, 2007, may enter into CCC-580 with CCC for payment on the quantity of eligible production commercially marketed by the dairy operation during the months the dairy operation was in business. Dairy operations that go out of business must meet dairy operation payment eligibility according to subparagraph B.
A Eligible Producer Definition

An eligible producer, for MILC program purposes, is any individual, group of individuals, partnership, corporation, estate, trust association, cooperative, other legal business enterprise, or other legal entity who is, or whose members:

- are a citizen of, or legal resident alien in the U.S., except as provided in subparagraph E
- directly or indirectly share in the risk of producing milk
- make contributions (including land, labor, management, equipment, or capital) to the dairy farming operation of the individual or entity that are at least commensurate with the share of the individual or entity of the proceeds of the operation.

Note: If producers in a dairy operation are not participating in other FSA programs where an applicable CCC-901, CCC-902E, or CCC-902P is already completed and on file, complete the CCC-580S according to paragraph 39. County Offices shall use the data obtained from these forms to update applicable eligibility records for each customer according to 3-PL.

B Estates and Trusts

An eligible producer may be an estate or trust, including any of the following:

- a receiver of an insolvent debtor's estate
- an executor or an administrator of a decedent's estate
- a guardian of any of the following:
  - an estate
  - a ward
  - an incompetent person
- trustees of a trust estate, if their representative authority is legally valid, according to 1-CM.

MILC program documents executed by producers legally authorized to represent estates or trusts will be accepted only if such producers furnish evidence of the authority to execute such documents.
11  Producer Eligibility (Continued)

C  Minors

A minor may be an eligible producer if any of the requirements in 1-CM are met.

D  Hired Hands

Hired hands who work for the dairy operation for a share of the milk proceeds or production may be eligible producers if they meet the definition of an eligible producer as provided in subparagraph A.

E  Foreign Person Eligibility

Foreign persons legally admitted in the U.S., and in an eligible dairy operation, are eligible to receive MILC benefits, if they meet the definition of an eligible producer as provided in subparagraph A, and also the requirements of:

- 7 CFR Part 1400
- 1-PL, Part 3.

See 62-FI, Part 5, for tax reporting guidelines when program payments are made to producers that are nonresident aliens.

F  Affiliated MILC Producer

An affiliated MILC producer is a producer who:

- is involved in the dairy operation on a regular basis
- has a direct and significant risk in the operation
- participates in the management of the dairy operation.

G  Deceased Producer

CCC-580M, Part D or E, as applicable, shall be completed by the producers’ heirs, estate, or successor-in-interest for payments earned after the date of death. Payments earned before the date of death may be issued using FSA-325, according to 1-CM.

Documents to verify succession-in-interest may be requested, as necessary, to COC’s satisfaction.

Note:  County Offices shall not issue payments to the taxpayer ID number of a deceased producer.
A Ineligibility

Ineligible producers are producers who:

- do not meet the definition of an eligible producer, according to subparagraph 11 A
- are not a part of an eligible dairy operation, according to paragraph 10
- violate WC and HELC provisions, according to 6-CP
- do not meet AGI requirements, according to 1-PL
- are convicted under Federal or State law of a controlled substance violation, according to 1-CM.

Note: See subparagraph 11 G for deceased producers.

B Ineligible Producer Shares

Ineligible producers on CCC-580’s with other eligible producers are still required to provide monthly production evidence to the County Office. All production will be counted toward the dairy operations maximum production limit during the producer’s period of ineligibility. However, the ineligible producer’s share percentage of the dairy operation’s total commercially marketed production will be excluded from the total payment to the dairy operation.

Therefore, if a producer becomes eligible after the dairy operation reaches its maximum production limit for the FY, the ineligible producer would not receive MILC benefits for the remainder of that FY. When an ineligible producer becomes eligible the producer can only receive benefits for:

- the months the producer meets all eligibility requirements
- production that does not exceed the maximum production limitation for FY.
A Eligible Production

All milk produced by cows in the U.S., and marketed commercially anytime during the period of October 1, 2007, through September 30, 2012, up to the maximum eligible quantity provided in subparagraph B, is eligible production for MILC program benefits.

Note: Commercially marketed milk production is a marketing of milk for which there is verifiable sales or delivery record of milk marketed for commercial use.

B Maximum Eligible Quantity

The maximum quantity of production per dairy operation eligible for payment per FY, are as follows:

- 2.4 million lbs. for the period beginning October 1, 2007, and ending September 30, 2008
- 2.985 million lbs. for the period beginning October 1, 2008, and ending August 31, 2012
- 2.4 million lbs. for the period beginning September 1, 2012, and thereafter.

Note: Dairy operations that have exceeded 2.4 million lbs. by September 1, 2012, will have met the maximum production quantity for FY 2012, and will not be entitled to further payments for additional lbs. of production for the month of September 2012, if there is a payment rate in effect.

Milk production produced during any FY will not count towards a dairy operations maximum eligible quantity for months during that FY:

- when there is no payment rate in effect for that month
- that precede the production start month designated on CCC-580 for the applicable FY.

C Production Marketed Outside the U.S.

Dairy operations that produce milk in the U.S., and commercially market the milk production outside the U.S., are eligible to receive program benefits.
D Eligible Dumped Production

Milk delivered to a handler that does not contaminate the bulk load that is paid for by the handler and reflected in the milk check, but is ultimately dumped by the handler, is eligible production for the MILC program.

Dumped milk production is typically identified as prenotification milk on the producer’s production statement from the milk handler or dairy cooperative.

See paragraph 14 for dumped milk that is considered ineligible production.

E Production Certification

All milk production produced and commercially marketed by the dairy operation for each applicable month must be specified and certified on CCC-580 during the contract period, except for months:

- when the payment rate is zero
- that follow after the maximum eligible production cap is reached
- when producers in the dairy operation will not be paid.

Monthly milk production may not be apportioned to circumvent the maximum eligible production quantity for the dairy operation.
**A Ineligible Dumped Milk Production**

The following situations are **not** considered commercially marketed milk and are; therefore, ineligible production for the MILC program:

- dumped milk that causes the contamination of a bulk load for which an insurance indemnity is paid to the producer for the contaminated milk
- milk dumped on the farm by State or health department order
- a loan made from a milk handler to a producer that temporarily compensates the dairy operation for contaminated or dumped milk production.
A Types of MILC Payments

Monthly contract payments are available to eligible dairy operations under the MILC program.

B Contract Period Payment Definition

Contract period payments means all monthly payments made under MILC.

See subparagraph D for contract period payment provisions.

C Payment Eligibility

Eligible producers may only receive MILC benefits for:

- the applicable months a producer meets all eligibility requirements according to Part 2
- production that does not exceed the maximum eligible quantity limitation according to subparagraph 13 B.

D MILC Contract Period Payment Provisions

Contract period payments under MILC are issued on a monthly basis, for the period of consecutive months beginning with either of the following:

- production start month selected by the dairy operation
- month CCC-580 is submitted to the County Office.

MILC monthly contract period payments issued during each FY end upon the earlier of the following:

- maximum eligible production cap is reached according to subparagraph 21 F
- end of the applicable FY.

16-19 (Reserved)
Part 3  Computing MILC Payments

20  Program Payments

A  National Payment Rate

MILC payments will be issued to eligible dairy operations on a monthly basis when the Boston Class I milk price is below $16.94 per cwt. When this price exceeds $16.94:

- no payments will be made to the dairy operation for that month
- production for that month will not count toward the operations maximum eligible production
- production evidence is not required from the producer for that month.

Payment rates will be rounded 7 places to the right of the decimal.

B  Feed-Cost-Adjusted Payment Rate

The baseline price of $16.94, as specified in subparagraph A, will be increased by 45 percent of the percentage by which the National Average Dairy Feed Ration Cost for the applicable month exceeds:

- $7.35 per cwt, during the period of January 1, 2008, through August 31, 2012
- $9.50 per cwt, during the period of September 1, 2012, and thereafter.

When the Boston Class I price for the month does not fall below the feed-cost-adjusted payment rate:

- no payments will be made to the dairy operation for that month
- production for that month will not count towards the operations maximum eligible production
- production evidence is not required from the producer for that month.

Payment rates will be rounded 7 places to the right of the decimal.
C How the National Average Dairy Feed Ration Cost is Calculated

The National Average Dairy Feed Ration Cost for each month is calculated from feed ingredient prices published each month by NASS in an Agricultural Prices publication. The calculation is based on the following mixed dairy feed component percentages and conversion factors.

<table>
<thead>
<tr>
<th>Feed Component</th>
<th>Percentage</th>
<th>Conversion Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Corn</td>
<td>51</td>
<td>56 lbs.</td>
</tr>
<tr>
<td>Soybeans</td>
<td>8</td>
<td>60 lbs.</td>
</tr>
<tr>
<td>Alfalfa</td>
<td>41</td>
<td>2,000 lbs.</td>
</tr>
</tbody>
</table>

Example: The prices used to calculate feed price ratios for the month of May are as follows:

<table>
<thead>
<tr>
<th>Commodity</th>
<th>Unit</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>Corn</td>
<td>Bu</td>
<td>$5.28</td>
</tr>
<tr>
<td>Soybeans</td>
<td>Bu</td>
<td>$12.10</td>
</tr>
<tr>
<td>Alfalfa</td>
<td>Ton</td>
<td>$177.00</td>
</tr>
</tbody>
</table>

The National Average Dairy Feed Ration Cost for the month is calculated as follows:

- **Corn:** $5.28 ÷ 56 lbs. = 0.0943 x 100 = $9.43 x 51% = $4.81
- **Soybeans:** $12.10 ÷ 60 lbs. = 0.2017 x 100 = $20.17 x 8% = $1.61
- **Alfalfa:** $177.00 ÷ 2000 lbs. = 0.0885 x 100 = $8.85 x 41% = $3.63

Ingredient Price: $4.81 + $1.61 + $3.63 = $10.05

The National Average Dairy Feed Ration Cost for the month of May is **$10.05**.

D Issuing Payments

After CCC-580 is approved by COC or designee, payments will be issued **no later than** 60 calendar days after the production evidence and all supporting documents for the applicable month are received by the FSA County Office, or the entire month National Average Dairy Feed Ration Cost for the month is made available by USDA, as applicable.
Program Payments (Continued)

E  Prompt Payment Provisions

Prompt payment interest will apply to program payments issued by CCC later than 60 calendar days after:

- all production evidence and supporting documentation for the month is provided to the County FSA Office
- all eligibility requirements are met
- the National Average Dairy Feed Cost for the applicable month is announced.

See 61-FI for prompt payment interest provisions.

F  Assignments and Offsets

MILC payments are subject to assignment (see 63-FI) and offset (see 58-FI).

G  Advance Payments

Advance payments will **not** be issued for the MILC program.

H  Direct Deposit Requirement

The Debt Collection Improvement Act of 1996 requires any recipient of Federal payments who becomes eligible for that payment after July 25, 1996, to receive the payment by electronic funds transfer. All producers receiving benefits under the MILC program **must** file SF-1199A, according to 1-FI, Part 3.
**I Accounting Program Codes**

Accounting program codes for MILC are provided in the following table.

<table>
<thead>
<tr>
<th>FY</th>
<th>Program Accounting Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>2008</td>
<td>08MILCII</td>

</tr>
<tr>
<td>2011</td>
<td>11MILCII</td>
</tr>
<tr>
<td>2012</td>
<td>12MILCII</td>
</tr>
</tbody>
</table>

**J eFC Allotments**

The National Office will allot program funds to the State Office level through the eFC system for payment processing. Allocations to the State Office level will be based on funds dispersed by each State during previous FY’s of the program. State Offices shall:

- re-allocate funds from the State Office level to the County Office level as necessary
- determine County Office level allocations amounts from eFC allotments from previous FY’s
- contact the National Office to request additional funds over the initial allotment.

Applicable eFC account codes are as follows.

Calculating Program Payments

A Payment Calculation

When the Boston Class I milk price is below $16.94 per cwt, the payment rate is determined for the applicable month by:

- subtracting the Boston Class I milk price per cwt from $16.94
- multiplying the difference by:

  - 34 percent during the period beginning October 1, 2007, and ending September 30, 2008
  - 45 percent during the period beginning October 1, 2008, and ending August 31, 2012
  - 34 percent during the period beginning September 1, 2012, and thereafter.

B MILC Payment Calculation Example

The following is an example of the MILC payment calculation.

The Boston Class I price announced in May 2009 was $14.51.

- $16.94 - $14.51 = $2.43
- $2.43 x 45% = $1.0935.

The payment rate for May 2009 was $1.0935000.
Calculating Program Payments (Continued)

C Feed-Cost-Adjusted Payment Rate Calculation

When the entire month National Average Dairy Feed Ration Cost for the applicable month exceeds the price per cwt applicable to the period specified in subparagraph 20 B, the payment rate is determined by:

- subtracting the price per cwt applicable to the period specified in subparagraph 20 B from the National Average Dairy Feed Ration Cost for the applicable month
- dividing the difference by the price per cwt applicable to the period specified in subparagraph 20 B
- multiplying the result by $16.94
- adding the result to $16.94.

D Feed-Cost-Adjusted Payment Rate Calculation Example

The following is an example of the feed-cost-adjusted payment rate calculation.

The entire month National Average Dairy Feed Ration Cost announced for the month of May 2008 was $10.05.

- $10.05 - $7.35 = $2.70
- $2.70 ÷ $7.35 = $0.36734694
- $0.36734694 x 45% = $0.16530612
- $0.16530612 x $16.94 = $2.80
- $16.94 + $2.80 = $19.74

The new MILC baseline trigger for the month of May 2008 is $19.74.

If the Boston Class I price for May 2008 was $18 or any amount less than the new MILC baseline trigger for the month, the calculation would be as follows:

- $19.74 - $18 = $1.74
- $1.74 x 34% = $0.5916000

The feed-cost-adjusted payment rate for the month would be $0.5916000.
21 Calculating Program Payments (Continued)

E Measurement Conversion

Payment for each dairy operation will be calculated by converting whole lbs. of milk to cwt and multiplying the payment rate by the quantity of eligible production.

Note: Cwt is 100 lbs.

F Maximum Quantity for Payment

The maximum quantity of eligible production for which dairy operations are eligible for payment per FY, are as follows:

- 2.4 million lbs. for the period of October 1, 2007, through September 30, 2008
- 2.985 million lbs. for the period of October 1, 2008, through August 31, 2012
- 2.4 million lbs. for the period of September 1, 2012, and thereafter.

Note: Monthly milk production may not be apportioned to circumvent the maximum quantity for payment.
A Class I Milk Definition

Class I milk is milk, including milk components, classified as Class I milk under a Federal milk marketing order issued by AMS.

Note: Only the Boston Federal milk marketing order is applicable to the MILC program.

B Boston Class I Price Announcement

Boston Class I milk prices are announced monthly and posted to the:

- AMS web site at www.fmmone.com/Northeast_Order_Prices/NE_Prices_main_new.htm#Component

The Boston Class I fluid milk price is announced on the Friday on or before the 23rd of each month.

C National Average Dairy Feed Cost Price Announcement

The entire month National Average Dairy Feed Cost Price is announced at the end of the month following the applicable month. For example, the entire month National Average Dairy Feed Cost price for the month of May is not known until June 30.

The National Average Dairy Feed Cost price is obtained from the USDA Agricultural Prices publication released by NASS. The USDA Agricultural Prices publication can be obtained at http://usda.mannlib.cornell.edu/usda/current/AgriPric.

Note: Only entire month prices will be used to calculate the feed-cost-adjusted payment rate, not preliminary price estimates.
A Production Start Month Definition

The production start month, selected by the dairy operation and designated on CCC-580, is the month for which CCC will begin payments to the dairy operation starting with the selected month and based on the selected months commercially marketed production.

Actual payments for the month selected cannot occur until all production evidence of commercial milk marketings for the month selected by the dairy operation have been received by the County Office to COC’s satisfaction.

B Payment Distribution

Beginning with the month selected by the dairy operation, and once required production evidence has been received by the County Office, payments will be issued based on the selected month’s production and for each consecutive month’s production thereafter, during months with a payment rate in effect, until the earlier of the following:

- the maximum payment quantity is reached according to subparagraph 21 F
- the applicable FY ends.

C Production Start Month Selection Restrictions

A dairy operation cannot select a month for payment for which any of the following has occurred:

- has already begun
- has already passed
- no milk production was produced by the dairy operation.

Note: Exceptions to the production start month selection restrictions may apply to FY 2009 only. See paragraph 27 for applicable MILC production start month provisions.
25 General Production Start Month Selection Provisions (Continued)

D Producer Agreement of Production Start Month

All producers involved in the dairy operation **must** agree to the month designated. The dairy operation assumes the risk of **not** reaching the maximum payment quantity based on the month selected and agreed to by the producers in the dairy operation.

**Note:** Payments will **not** be issued for past months for the sole purpose of reaching the maximum payment quantity.

E No Payment Rate in Effect

If there is no payment rate in effect during the production start month selected by the dairy operation and designated on CCC-580, the dairy operations payment will begin with the next consecutive month in which there is a rate in effect that follows the selected production start month.

26 (Reserved)
A Production Start Month Designation

During FY 2008 through FY 2012, producers in a dairy operation participating in the MILC program must select a month of commercially marketed production for which CCC shall begin issuing payments to the dairy operation. The production start month selected by the producers in the dairy operation must be designated on CCC-580, according to paragraph 38.

Note: A dairy operation can select the production start month for all FY’s at the same time when CCC-580 is submitted to the County Office.

If after making a production start month selection during any FY, the producers in the dairy operation fail to select the production start month for all other subsequent FY’s, by perpetual designation as provided in subparagraph 28 E, the production start month for all other subsequent FY’s for which a production start month is not selected will be the production start month initially designated.

B Production Start Month Selection Deadline

The production start month selection made by the dairy operation and designated on CCC-580 must be received in the County Office:

- on or before the 14th of the month before the production start month selected by the producers in the dairy operation, except as otherwise provided by subparagraph C

Note: If the 14th of the month falls on a weekend, the dairy operation production start month selection must be made on the last business day preceding the weekend.

- before the Boston Class I fluid milk price of the month selected by the producers in the dairy operation is announced to the public.

C FY 2008 Production Start Month Selection

During FY 2008 only, a dairy operation can select a production start month from any month beginning October 2007, through September 2008, in which there was or was not a payment rate in effect.

If a production start month is selected without a payment rate in effect, a dairy operation will receive a payment for the first consecutive month following the production start month select that has an effective MILC payment rate.

Note: Because there was no payment rate in effect during FY 2008, this selection option for FY 2008 will not be available on CCC-580.
D  FY 2009 through FY 2012 Production Start Month Selection

The production start month selection options available to MILC program participants are dependent on which phase of the signup CCC-580 for the dairy operation is submitted to the County Office. The signup phases are as follows:

- initial
- extended.

See paragraph 35 for signup provisions and deadlines applicable to each signup phase.

E  Production Start Month Selection During the Initial Signup Phase

Producers that submitted CCC-580 for benefits during the initial signup phase established in subparagraph 35 can select the production start month for the dairy operation from either of the following:

- any month that precedes the month CCC-580 is submitted, including the month CCC-580 is submitted

- any month remaining in FY 2009, according to normal start month selection provisions provided in paragraphs 25 and 27

Producers may also make FY 2010 through 2012 production start month selections according to normal start month selection provisions provided in paragraphs 25 and 27 during the initial signup phase.

Note: CCC-580’s submitted after the initial signup phase will be considered a submission during the extended signup phase as provided in subparagraph F.
F Production Start Month Selection During Extended Signup Phase

Producers that submitted CCC-580 for benefits during the extended signup phase can select as the MILC production start month for their dairy operation either of the following:

- the month CCC-580 is submitted

  **Note:** Selection provisions do **not** apply to this option when selection is made according to applicable provisions.

- from the months remaining in FY in which CCC-580 is submitted for which the payment rates is **not** known.

  **Note:** Selection provisions apply to this option and **must** be made according to selection rules and signup provisions applicable to the extended signup phase.
A Changing the MILC Production Start Month Selection

Changes to the MILC production start month selected by the dairy operation must be made on or before the 14th of the month before the:

- month originally selected by the dairy operation as their MILC production start month
- newly selected MILC production start month for the dairy operation.

Changes must be made in advance of payment rates being known by the public for both the original production start month that the dairy operation is changing from and the production start month that the dairy operation is changing to. Otherwise, the MILC production start month can only be changed for the following FY.

Note: For FY 2008 and during the initial signup phase, no changes may be made to the retroactive production start month selection after payment has been issued for the originally selected production start month.

B MILC Production Start Month Change Request

MILC program participants may elect to change their production start month for a given FY. A change to a dairy operation’s MILC production start month must:

- be made according to start month selection provisions provided in paragraphs 27 and 28 and selection rules applicable to MILC
- occur before payment has been issued for the previous month selected on CCC-580
- be designated on CCC-580M, Part B, according to instructions provided in paragraph 44
Production Start Month Change Provisions (Continued)

C When the Production Start Month Cannot be Changed

The production start month designated on CCC-580 cannot be changed if:

- the new month being selected has done either of the following:
  - already begun
  - already passed
- payment has already been issued for the previously selected month.

D Changing Limitations

There is no limit to the number of times the production start month may be changed, as long as the change is made according to applicable Part 4 program provisions.

E Perpetual Designation

If the production start month is never modified by the producers in the dairy operation, the production start month designated on CCC-580 and on file with the County Office will remain the same for succeeding FY’s throughout the duration of the MILC program.

29-34 (Reserved)
MILC Program Signup

A MILC Program Signup Period

The MILC program signup will be conducted in the following 2 phases:

- initial signup, according to subparagraph B
- extended signup, according to subparagraph C.

Eligible producers may file CCC-580’s anytime during the established timeframes for each respective signup period. Only one CCC-580 should be submitted for the dairy operation during either signup. Producers shall file CCC-580’s in the county where the dairy operation is physically located or in the administrative County Office.

B MILC Program Initial Signup Phase

The initial signup phase for the MILC program will be within 30 calendar days of the beginning of the application signup period. To receive the production start month selection options available under the initial signup phase, a completed CCC-580 must be received in the applicable County Office within 30 calendar days of the beginning of the application signup period.

C MILC Program Extended Signup Phase

Extended signup under MILC will begin, the day after the initial signup ends. The extended signup will continue through the duration of the MILC program, ending September 30, 2012. To receive the production start month selection options available under the extended signup phase, a completed CCC-580 must be received in the applicable County Office by COB September 30, 2012.

D MILC Program Signup Deadline

Completed CCC-580’s must be received in the applicable County Office by COB, September 30, 2012, to be considered eligible for MILC benefits.

36 (Reserved)
A dairy operation shall use CCC-580 to apply for MILC benefits. A separate CCC-580 shall be filed for each dairy operation that produced and commercially marketed milk during the applicable authorized program period. The total lbs. of milk marketed under the dairy operation during each applicable month of FY for all producers receiving a share of the milk marketed must be included on one CCC-580 for CCC-580 to be considered complete for approval by CCC. More than one CCC-580 is not acceptable for the program benefits, unless the dairy operation has been determined separate and distinct according to the State’s interpretation of a separate and distinct operation where the dairy operation is physically located, as provided by paragraph 52.

Example: Dairy Operation 1 consists of 2 persons who jointly share in the operation 50 percent.

Dairy Operation 2 consists of 1 of the persons from Dairy Operation 1, but this person has 100 percent interest in Dairy Operation 2.

There will be two CCC-580’s, provided the operations are determined separate according to the State where the dairy operations are physically located, according to paragraph 52. The two CCC-580’s would be as follows:

- Dairy Operation 1 files CCC-580 that includes all milk marketed for both persons on Dairy Operation 1 and CCC-580 is shared 50-50 between the 2 persons
- Dairy Operation 2 files CCC-580’s for all milk marketed on Dairy Operation 2.

Note: Producers may file CCC-580’s in either the county where the dairy operation is physically located or in the producer’s administrative county.
Filing CCC-580’s (Continued)

B Contract Numbers

Contract numbers will be assigned through eMILC and payment processing software and must be manually transferred to CCC-580 after the County Office has entered the information into the eMILC application.

C Obtaining CCC-580’s

Eligible dairy operations can obtain CCC-580 to request program benefits from the County Office where the dairy operation is physically located or in the producer’s administrative county by any of the following methods:

- electronically from the following web sites:
  - eForms web site at www.sc.gov.usda.gov
  - FSA web site at http://165.221.16.90/dam/ffasforms/forms.html

- from any County Office as follows:
  - in person
  - by mail
  - by telephone
  - by FAX.

Note: Regardless of how CCC-580’s are obtained, CCC-580 must be completed correctly, signed, and returned to the applicable County Office by COB on the deadline date determined by FSA, to be considered eligible for program benefits.
D Signature Requirements

All producers who share in the risk of a dairy operation's total production must certify to the information in CCC-580 before CCC-580 will be considered complete or approved by CCC.

County Offices shall follow 1-CM for the following:

- producers’ signature and authorization provisions
- persons signing CCC-580 in a representative or fiduciary capacity
- payment of amounts due persons who have died, disappeared, or have been declared incompetent.

Note: If for some extenuating circumstance all signatures cannot be obtained, CCC may exercise authority under CCC-580 Appendix, subparagraph 10 B to modify the contract according to the appropriate share percentages if it is determined to the satisfaction of the COC that accepting CCC-580 without such signature is necessary to carry out purposes of the program or to facilitate the programs practical administration. A waiver is not necessary; however, applicable circumstances should be noted on CCC-580.
E  Approving CCC-580

COC or designee shall:

- be satisfied that all applicable program eligibility requirements of Part 2 have been met before approving the applicable CCC-580

- **not** approve any CCC-580 that was requested or received after COB on the deadline date determined by FSA

- **not** approve CCC-580’s for a joint venture or joint operation **unless** all members of the joint venture or joint operation who share in the milk marketed commercially from the dairy operation have signed CCC-580

- ensure that a completed CCC-580S is on file for every dairy operation **not** participating in other FSA programs where an applicable CCC-901, CCC-902E, or CCC-902P is already completed and on file, according to paragraph 39

- complete CCC-770 Eligibility, according to 3-PL, for each producer on CCC-580

  **Note:** Once CCC-770 Eligibility is completed for FY, unless there is a change in operation or eligibility status, it is **not** necessary to complete a new CCC-770 Eligibility.

- complete CCC-770 MILC, according to subparagraph 45, for every dairy operation

- provide CCC-580 Appendix (see Exhibit 5) to contact producer for the dairy operation at the time the dairy operation signs-up for the MILC program.
Filing CCC-580’s (Continued)

F Other Applicable Forms

AD-1026 is required for program benefits. HELC and WC rules apply. See 6-CP for guidance on HELC and WC provisions.

AGI requirements apply to MILC; therefore, CCC-926 is required to be completed. See 1-PL for guidance on AGI provisions.

G Delegation of Authority

The authority to approve all CCC-580’s, and all other program documents, must be re-delegated, in writing, to the next authority. Follow this table for exceptions to re-delegate authority for CCC-580 approval.

H Second Party Review

A second party review of eligibility requirements and production evidence shall be performed before issuing a monthly contract payment. The reviewer must initial CCC-770 MILC, according to subparagraph 45 D, when each payment review is complete.

Note: The production evidence must be reviewed against data entered in eMILC.

### PART A - FY 2009 - 2012 MILC PRODUCTION START MONTH

If this contract is submitted within 30 days of the time at which CCC begins accepting contracts, the dairy operation can select any month preceding the month the contract is submitted or any month thereafter, as the FY 2009 production start month, including the month the contract is submitted. A dairy operation that submits this contract 30 days after CCC begins accepting contracts, may select as their production start month, either (1) the month the contract is submitted OR (2) any month after the contract is submitted in the fiscal year that has not begun or has not passed, and that selection must be made on or before the 14th of the month before the month the dairy operation wants to select as their production start month.

40 (Reserved)
A Production Evidence

Dairy operations entering into CCC-580 with CCC must provide verifiable production evidence of the operation’s eligible marketings during the months of each FY designated in CCC-580 during the specified contract period.

The production evidence must be provided to the County Office with any supporting documentation available to assist in verifying the operation’s eligible production and commercial milk marketings beginning with the starting month designated in CCC-580 and the subsequent months of production thereafter.

County Offices have 60 calendar days to issue payment to the dairy operation from the later of the following:

- receipt of the required production evidence to issue payment to the dairy operation
- the date the entire month National Average Dairy Feed Ration Cost for the applicable month is known.

Note: Any dairy operation that cannot timely provide the required documentation will be ineligible for benefits.

B Verifiable Production Records

Verifiable production evidence must be provided to the County Office before any payment will be issued to a dairy operation. Verifiable production records are evidence that is used to substantiate the amount of production reported that can be verified by CCC through an independent source.
C Acceptable Documentation

Verifiable production evidence includes, but is **not** limited to, the following:

- milk marketing payment stubs
- tank records
- milk handler records
- daily milk marketings
- copies of any payments received as compensation from other sources.

**Note:** See subparagraph 13 E for when production evidence is **not** required.

Production evidence and other supporting documentation may be received through any of the following:

- mail
- FAX
- in person at the County Office
- electronic mail.
41 Supporting Documentation (Continued)

D Reviewing Documentation

When the supporting documentation is received in the County Office:

- in person or by mail, make a copy, date stamp the copy, and return the originals to the contact producer

**Note:** If duplicate originals are provided to the County Office the original must be date stamped, but it is not necessary to return the original to the producer.

- review to verify that during the applicable months specified in CCC-580:
  - there was milk marketed commercially
  - all persons involved in the dairy operation have provided milk marketing documentation
  - ensure that the eligible lbs. of milk marketings during the applicable months correspond to the months of production:
    - indicated in CCC-580
    - entered in eMILC.

Attach all supporting documentation to CCC-580.
E Production Discrepancies

All production discrepancies must be resolved to the satisfaction of COC before payments will be issued to the dairy operation. COC must review and determine any of the following:

- good faith
- misrepresentation, scheme, or device.

If COC:

- determines good faith, no further action is necessary
- cannot determine good faith and determines that misrepresentation, scheme, or device occurred, the dairy operation is not eligible for benefits and the entire payment must be refunded; see Part 8 for additional remedies.

COC's shall use their judgment when determining good faith to ensure that the dairy operation did not intentionally certify incorrectly.

F Suspected Cases of Program Abuse

When it appears that a producer or operation has provided false or erroneous data, or intentionally misrepresented a material fact in an attempt to enhance potential program payments, further action is necessary. This does not include unintentional reporting or certification errors, unless the errors are so great they impact program integrity. See Part 8 for additional remedies for cases of suspected program abuse.
G Refunding Payments

For dairy operations that must refund payments because the dairy operation has been determined out of compliance, interest will accrue at the CCC borrowing interest rate from the date of payment through the date the refund is received. Inform the producer of any amounts due according to 58-F1. If refunds are not paid by the due date, establish a claim according to 58-F1.

H Production Evidence Submitted by Cooperatives

County Offices may accept monthly production evidence from dairy cooperatives or handlers provided the producers of the eligible dairy operation select the appropriate authorization statement in CCC-580, Part D, authorizing the County Office to receive the production evidence directly from the dairy marketing cooperative or handler.

Production evidence received from the dairy cooperative or handler is subject to further verification, if necessary, and may be provided to the County Office by the following:

- FAX transmission
- electronic mail
- mail delivery.

The authorization will remain in effect until either of the following:

- end of the contract period
- authorization is terminated, in writing, by the producer.

If during the MILC program the operation needs to change the authorization to accept production evidence from the dairy cooperative listed in CCC-580, the producer must submit a written statement to the County Office, terminating the authorization for the cooperative listed in CCC-580, item 20A, and indicate the new cooperative for which the new authorization is being provided.

When a dairy cooperative is being changed, COC designee shall:

- line through the previously authorized cooperative listed in CCC-580, item 20A
- write-in the newly authorized cooperative in CCC-580, item 20A, initial, and date
- enter in CCC-580, item 24 that a new authorization is attached.

I Production Evidence Deadlines

Final production evidence for program payments must be received in the applicable County Office by COB, November 1, 2012.
A Dairy Product Conversion Factors

Producers must report the dairy operations eligible production during each applicable month in lbs. Use the weight measurement indicated on the production evidence as the same unit of measure (lbs., gallons, etc.) in the conversion. Lbs. will be converted to fluid milk lbs. according to subparagraph B and gallons will be converted to gallons in the same manner. Convert dairy products according to the following table.

<table>
<thead>
<tr>
<th>Dairy Product (1 Unit of Measure)</th>
<th>Conversion Factor (Equals x Unit of Measure of Milk)</th>
</tr>
</thead>
<tbody>
<tr>

<td>1.9</td>
</tr>
<tr>
<td>Yogurt</td>
<td>0.9</td>
</tr>
<tr>
<td>Heavy Cream (Whipping Cream)</td>
<td>4.2</td>
</tr>
</tbody>
</table>

B Conversion from Lbs. to Fluid Milk Lbs.

To convert lbs. of a dairy product to the equivalent fluid milk lbs., multiply the lbs. of the dairy product reported by the conversion factor for the applicable dairy product provided in subparagraph A.

Example: A dairy operation provides the County Office with production evidence of 300 lbs. of commercially marketed cheese during any given month. Multiply 300 by 10 to get a total of 3,000 lbs. of eligible production for that applicable month.
Conversion Factors (Continued)

C  Conversion from Gallons to Gallons

To convert gallons of a dairy product to the equivalent fluid milk gallons, multiply the gallons of the dairy product reported by the conversion factor for the applicable dairy product provided in subparagraph A.

Example: A dairy operation provides the County Office with production evidence of 100 gallons of commercially marketed half and half during any given month. Multiply 100 by 1.8 to get a total of 180 gallons of milk.

Conversions from gallons to gallons must be further converted to lbs. of eligible production according to subparagraph D.

D  Conversion From Gallons to Eligible Lbs. of Production

Production evidence received from producers that indicate gallons must be converted to lbs. A conversion rate of 8.6 lbs. is equivalent to 1 gallon of milk.

After applying the conversion factor for gallons according to subparagraph C, multiply the converted gallons by 8.6 to get the total lbs. of eligible production.

Using the example in subparagraph C, after the 100 gallons of half and half are converted to 180 gallons of milk, multiply the 180 gallons times 8.6 to get a total of 1,548 lbs. of eligible production.
A Allowable Changes to CCC-580

Producers of a dairy operation who have an approved CCC-580 on file with the County Office may make the following types of changes to CCC-580 using CCC-580M:

- adding a new producer or shareholder
- removing a producer or shareholder that no longer participates or shares in the risk of production
- changing the share percentages of any producer
- replacing a deceased producer with a spouse or child
- changing the MILC production start month selected by the dairy operation
- transferring CCC-580 to another State and county when a dairy operation relocates
- modifying producer/shareholder information when either:
  - adding a producer
  - removing a producer
  - changing a producer’s share percentage
- modify the organizational structure, including the tax ID number and name of the dairy operation, when applicable.

Note: County Offices must notify the producers in the dairy operation of the requirement to notify the County Office if there is any change to the dairy operation at the time of signup.
B Modifying CCC-580’s

Producers of a dairy operation must make changes or modifications to an existing CCC-580 by completing and filing CCC-580M with their County Office.

Producers must file a separate CCC-580M for each CCC-580 being modified. See paragraph 44 for instructions on completing CCC-580M.

C Obtaining CCC-580M’s

CCC-580M’s are available by any of the following methods:

- electronically from the following web sites:
  - eForms web site at www.sc.gov.usda.gov
  - FSA web site at http://165.221.16.90/dam/ffasforms/forms.html
- from any County Office as follows:
  - in person
  - by mail
  - by telephone
  - by FAX.
Using CCC-580M’s (Continued)

D Submitting CCC-580M’s

CCC-580M may be returned to the County Office where CCC-580 is being maintained as follows:

• in person
• by mail
• by FAX.

E Signature Requirement

If authorized by the dairy operation, the contact producer or other person authorized under the general rules of signature authority provided in 1-CM may sign and date CCC-580M, as applicable.

Exception: When producer/shareholder information is modified in CCC-580M, Part D, each producer/shareholder must sign, as applicable.

F Unobtainable Signatures

If for some extenuating circumstance all signatures cannot be obtained, CCC may exercise authority under CCC-580 Appendix to modify CCC-580 and CCC-580M according to the appropriate share percentages, if it is determined to the satisfaction of COC that accepting CCC-580 and CCC-580M without signature is necessary to carry out purposes of the program or to facilitate the programs practical administration.

If a producer is no longer available or refuses to sign CCC-580 or CCC-580M:

• include their corresponding information on CCC-580 or CCC-580M

• indicate on CCC-580, by checking the appropriate box, that their share percentage was refused

• note the reason for not obtaining the signatures of all members of the dairy operation in CCC-580 and CCC-580M, Remarks Section.
Using CCC-580M’s (Continued)

G Multiple Modifications

Producers must file a separate CCC-580M each time MILC for the dairy operation is modified.

H Approving CCC-580M

COC, or designee, may approve a completed CCC-580M after all necessary signatures have been obtained, as applicable. The dairy operation will receive MILC payments based on CCC-580M changes immediately, beginning with the dairy operation’s next MILC payment issued after approval of CCC-580M, or according to the MILC production start month change.

I When to File CCC-580M

If there has been a change in an existing CCC-580, before issuing a payment:

- CCC-580M must be filed with the local County Office
- all required signatures must be obtained, according to subparagraph E.

Note: If CCC-580M is not filed before issuing a payment, but after a change has been made in the dairy operation, COC may make a determination according to Part 8.

Remarks:
Lilly Farmer joined the partnership Milktime Dairy with father and brother. The new dairy operation is called Milkshake Dairy. Production from Milktime Dairy for FY 2011 for Oct, Nov, Dec. totals 590,000 lbs. Production for Lilly Dairy for FY2011 for Oct, Nov, and Dec. was 300,000 lbs. The total production for the combining entities is 890,000 lbs.
A Background

The Improper Payments Information Act of 2002 required each agency to:

- identify programs and activities susceptible to significant improper payments
- report to Congress an estimate of the annual amount of improper payments made
- report actions taken to reduce improper payments, including possible causes and a description of the steps in place to ensure accountability for reducing improper payments.

Because of the Improper Payments Information Act of 2002 mandate, CCC-770 MILC will be used as a tool to help minimize the number of improper payments.

B General Information

It is not the intent for CCC-770 MILC to supersede or replace procedure. County Offices shall use CCC-770 MILC as a reminder of the most frequently “erred” actions when issuing MILC payments.

County Offices should recognize that the questions asked on CCC-770 MILC are very general in nature. For CCC-770 MILC to address every conceivable situation as it pertains to eligibility would not be practical.

C Using CCC-770 MILC

CCC-770 MILC, developed by the National Office, is the only authorized checklist for the MILC program. County Offices shall not use State or locally generated checklists for the MILC program.

County Offices shall:

- complete one CCC-770 MILC for each dairy operation with CCC-580 per FY
- record each monthly contract payment issued to the dairy operation during a FY on the same CCC-770 MILC
- see subparagraph D for instructions on completing CCC-770 MILC
- maintain CCC-770 MILC with each CCC-580.

Note: Using CCC-770 MILC before issuing payments to producers in a dairy operation is mandatory.
D CCC-770 MILC Instructions

A CED Spot Checks

CCC-770 MILC’s certified by a preparer **must** be spot checked by CED or their designated representative on a FY basis. CED or designee shall:

- use the Financial Services Report of MILC Payments Issued to randomly select spot checks based on the date range specific to each FY

- spot check, at a minimum, the first 5 preparer certified CCC-770 MILC’s **before** payment disbursement every FY in each Service Center

- randomly spot check up to five CCC-770 MILC’s for each FSA employee, including STC’s and COC’s, for each FY in each Service Center

  **Note:** Spot checks of STC, COC, and/or employees are in addition to the minimum 5 required for each FY.

- **certify** spot check on CCC-770 MILC, item 12, according to instructions provided in **subparagraph 45 D**

- report to COC and STC representative any CCC-770 MILC that is checked, “Do **not** concur”

- **not** spot check every CCC-770 MILC completed in their county.

  **Note:** CED’s are encouraged to copy and file, by program, **all** CCC-770 MILC’s that they spot check.
B STC or Designee Spot Check Requirements

CCC-770 MILC’s certified by a preparer must be spot checked by STC or their designated representative on a FY basis. STC or designee shall:

- select a minimum of 5, not to exceed 10, CCC-770 MILC’s, including eligibility, to spot check every FY in each Service Center

- select a combination of CCC-770 MILC’s that were:
  - spot checked by CED according to subparagraph A
  - randomly selected, not previously reviewed by CED

- randomly spot check up to five CCC-770 MILC’s for each FSA employee, including STC’s and COC’s, for each FY in each Service Center

  Note: Spot checks of STC, COC, and/or employees are in addition to the minimum ten CCC-770 MILC’s spot checked for each FY.

- certify completed spot checks on CCC-770 MILC, item 13, according to the instructions provided in subparagraph 45D

- submit the results of the spot check to SED.

  Note: DD or State Office representative shall use the Financial Services Report of MILC Payments Issued to randomly select the appropriate number of State Office required spot checks for each FY that were not previously reviewed by CED.
C Other Spot Check Requirements

The following are other spot check requirements.

- SED’s may require additional spot check reviews at their discretion provided SED determines that there are apparent internal control deficiencies.

- If STC or designee has completed five CCC-770 MILC’s in a FY, no additional spot checks are required for that FY.

D National Office Report

At the end of the FY, State Offices shall compile a report of spot check results for submission to the National Office. Each report must be categorized by the following:

- county
- number of CCC-580’s received in County Office
- number of CCC-770 MILC:
  - selected for spot check by CED or designee
  - selected for spot check by STC or designee
  - not concurred by CED or designee
  - not concurred by STC or designee.

Reports of results are due to PSD no later than October 31 each year. Reports must be submitted to the attention of MILC by either of the following:

- e-mail to toni.williams@wdc.usda.gov
- FAX to 202-690-1536.

47-49 (Reserved)
Dairy Operation Relocations

A Notifying the County Office of Intention to Relocate

Dairy operations must immediately notify their local County Office of intentions to relocate their dairy operations to another State and/or county in CCC-580M, Part C. When CCC-580M is received for a relocation modification, County Offices shall:

- process the CCC-580 transfer in the eMILC web-based system
- transfer dairy operation records according to subparagraph B.

B Transferring Dairy Operations Records

After CCC-580M is received from a relocating dairy operation, County Offices shall:

- photocopy all pertinent records about program eligibility and production evidence, including CCC-580
- maintain photocopies in office files
- transfer originals to new State and/or county of the relocating dairy operation.
A Modification of Producer/Shareholder Information

To modify the producer/shareholder information on CCC-580, producers in a dairy operation must complete and submit CCC-580M, Part D, which will allow CCC-580 to be modified when the following occurs:

- a new producer or shareholder is added to CCC-580
- a producer or shareholder no longer participates or shares in the risk of production on an approved CCC-580, and must be removed
- there is a change in the percentage of shares of any producer on an approved CCC-580
- a spouse or child of a deceased producer replaces the deceased producer on CCC-580.

B Organizational Modifications

Various circumstances may cause a dairy operation to change the organization of the operation. Producers and shareholders in the operation may remain the same; however, the following may change:

- business structure of the operation
- taxpayer ID number
- name of the dairy operation.

Changes to CCC-580, because of an organization modification to the dairy operation, must be recorded by the dairy operation using CCC-580M, Part E, according to instructions provided in paragraph 44.

C Processing Dairy Operation Modifications in eMILC

MILC modifications to dairy operation information must be processed in eMILC and payment processing software according to applicable directives.
A Dairy Operation Definition

A dairy operation is any person or group of persons who, as a single unit as determined by CCC, produce and market milk commercially produced from cows, and whose production and facilities are located in the U.S.

Note: This definition is the same definition used for both DMLA-III and MILC programs.

Each State and County Office shall strictly adhere to and apply this definition to the MILC program in the exact same manner applied for the DMLA-III program in their State.

B State Interpretation

SED’s and STC’s shall issue a Statewide directive to County Offices, based on the States interpretation of a dairy operation used in DMLA-III, setting forth the criteria required to establish separate and distinct dairy operations for MILC program purposes within the respective State. The established criteria shall be used as a guideline for STC and COC to use when making separate and distinct dairy operation determinations. COC shall use their best judgment and knowledge of the dairy operation when determining an operation is separate from another operation.

Note: Any questionable cases shall be forwarded to STC, through the State Office specialist for review and concurrence.
C Operation Business Rules

County Offices must apply the same standards that were applied in implementing DMLA-III, as instructed by the Food, Conservation, and Energy Act of 2008. Therefore, County Offices shall:

- identify dairy operations that received a payment under DMLA-III to determine how the operation will exist in the MILC program
- based on the State where the dairy operation is located, apply that State's interpretation of a dairy operation used in previous DMLA programs to determine how the operation will exist in the MILC program
- determine eligible new operations according to subparagraph D, applying the State's interpretation of a dairy operation used in DMLA-III, and the State criteria established according to subparagraph B, to determine how the operation will exist in the MILC program
- apply business rules according to this subparagraph, for producers affiliated with dairy operations that:
  - received a payment under DMLA-III
  - received a payment under MILC
  - have/had an approved CCC-580 in effect with CCC
  - reconstitute the dairy operation after October 1, 2007.
D New Operations

County Offices shall determine an eligible new dairy operation as any dairy operation purchased or formed by a producer not affiliated with any dairy operation:

- that received a DMLA-III payment
- that received a MILC payment
- with an approved CCC-580 with CCC.

Eligible new dairy operations may enter into CCC-580 with CCC anytime during the duration of the MILC program application period.

E Additional Dairy Operations

Beginning with FY 2008, any additional dairy operation purchased or formed, because of the dissolution or expansion of a dairy operation that participated in the MILC program, by a producer affiliated with a dairy operation that has an approved CCC-580:

- is subject to review by FSA to determine legitimacy
- will exist in the MILC program according to State interpretation of a dairy operation used during the previous DMLA programs and criteria established according to subparagraph B in the State where the dairy operation is located.

If after FSA review the additional dairy is determined to be a legitimate acquisition, the additional dairy purchased may be considered an eligible new dairy operation.
A Reconstituted Dairy Operations

A dairy operation that reorganizes or restructures the constitution or makeup of their operation into another organizational framework must:

- not reorganize for the sole purpose of receiving multiple payments
- notify the County Office immediately of the reconstitution on CCC-580M, Parts E and F.

Changes to a dairy operation that result in the reconstitution of the dairy operation are subject to review by FSA to determine legitimacy if reorganized after:

- receiving a DMLA-III payment
- MILC payment
- October 1, 2007.

Producers will remain on their original CCC-580 until the new CCC-580 becomes effective the following FY, when the following occurs:

- producer exits an existing operation to form a new operation because of a reconstitution of a dairy operation
- producer forms a new operation with another producer with an approved CCC-580.

Note: Payments will continue to be issued to all producers on the original CCC-580 subject to the applicable maximum production limitation for the operation for that FY. Shares may be adjusted, as appropriate. County Offices must manually track production limitation on CCC-580M, Part H, based on the combined production paid a MILC benefit from each operation with CCC-580 on file. The new operation must complete a new CCC-580, subject to approval, and will begin to receive payments on October 1 of the following FY.

B Reconstitution Effective Date

Producers on eligible dairy operations participating in the MILC program must notify FSA immediately of any changes that may affect their CCC-580. If during the contract period a reconstitution occurs, the modification to CCC-580 will not take effect until the first day of the FY following the month the County Office received notification of the changes.

However, changes resulting in the reduction of shareholders or producers and their corresponding share amounts in the dairy operation will take effect immediately upon notification to CCC on CCC-580M.
C Reconstitution Example

Operation A milks 300 cows; Operation B milks 200 cows. Both dairy operations currently participate in the MILC program and have CCC-580’s on file. On May 1, both dairy operations decide to reconstitute their operations by merging their herds into 1 operation to form ABC, LLC. Operation A and Operation B must each complete CCC-580, Parts E and F and submit to the County Office to notify CCC of the reconstitution.

Before the reconstitution, Operation A produced and was paid MILC benefits on 1 million lbs. of production, and Operation B produced and was paid MILC benefits on 800,000 lbs. of production. The production from both operations must be combined and manually tracked with production from the newly reconstituted dairy operation, ABC LLC. The producer from Operation A has a 60 percent share in ABC LLC and the producer from Operation B has a 40 percent share in ABC, LLC. Since Operation A and Operation B must remain on their original CCC-580 until the next FY, the County Office must manually track, on CCC-580M, Part H commercially marketed production that is paid a MILC benefit to ensure that neither Operation A or Operation B collectively exceed the maximum production limit for the applicable FY.

Example: The combined production from Operation A and Operation B totals 1,800,000 lbs. ABC, LLC’s commercially marketed production in May was 750,000 lbs, which is added to the combined total of 1,800,000 lbs from both operations, for a total of 2,550,000 lbs. Payments will be issued according to the appropriate share percentages. The County Office must manually add production from ABC, LLC for each month’s production that received MILC benefits to the combined balance of production from both Operation A and Operation B until the production limit is met for FY.
C  Reconstitution Example (Continued)

The tables below continue the example through the end of the FY for each operation.

General Eligibility

A MILC Agent Eligibility

Qualified persons representing a dairy marketing cooperative or milk handling organization must:

- obtain FSA-211 from each producer for which the MILC agent will act
- complete CCC-582 and submit to the appropriate County Office
- execute CCC-36, according to 63-FI, to assign the dairy producer’s MILC program payments to the MILC agent
- be approved by CCC.

B Approved MILC Agents

MILC agents approved by CCC will be required to disburse payments obtained from CCC to the dairy operations through the producer’s monthly milk check issued by either of the following:

- dairy cooperative
- milk handling organization.
C Alternative Disbursement Methods

Alternative methods of disbursing payments to producers in a dairy operation must be requested, in writing, and approved by CCC if the MILC agent is unable to disburse the producer’s payment through their monthly milk check.

D Power of Attorney

MILC agents must obtain FSA-211 for each producer of the dairy operation authorizing the agent to act on its behalf and enter into CCC-580 with CCC. MILC agents must be granted power of attorney on FSA-211 completed by the producers of the dairy operation and submitted to the County Office where the dairy operation is located. County Offices shall follow 1-CM policy for powers of attorney.

E MILC Agent Application

To become an approved MILC agent for the MILC program, qualified persons must:

- complete CCC-582
- agree to prescribed terms and conditions
- submit for approval by CCC.
A Completing CCC-582’s

To become an approved MILC agent for the MILC program, qualified persons must complete CCC-582. If a person requests CCC-582, County Offices shall:

- **not** complete Part B, item (b), until the completed CCC-582 has been submitted to the County Office

- provide the following instructions to the MILC agent to complete CCC-582 according to this table.

CCC-582 (12-01-08)  

PART B - AGREEMENT

THIS AGREEMENT made and entered into this (4) 1st day of (2) October 2009, by and between Commodity Credit Corporation (CCC) and (4) Fred Hoffbrow, (Name of MILC Agent)

WITNESSETH:

WHEREAS, CCC desires that qualified persons act as MILC agents to assist producers of special religious groups in obtaining MILC payments under the MILC program of CCC, and the person named above desires to be approved as a MILC Agent under such program:

NOW, THEREFORE, CCC does hereby approve the person named above, as a MILC Agent under the MILC program, and in consideration of the premises and other considerations contained herein, the parties hereto agree to the duties of the MILC agent as follows:

1. MILC Agent shall be familiar with the provisions of the Milk Income Loss Contract program contained in applicable directives issued by FSA, regulations at 7 CFR Part 1430 (the regulations), the forms, addendums, and appendices prescribed by CCC, and perform duties according to such procedures outlined and issued by the Deputy Administrator for Farm Programs.

2. Subject to other provisions of this Agreement, the MILC Agent shall obtain an acceptable power of attorney or acceptable equivalent for the producers of the dairy operation of a special religious group that authorizes the agent to enter into a MILC contract.

3. MILC Agent shall provide the dairy operation's monthly production evidence to the appropriate FSA Office indicated in Item 6 of Part A of this application.

4. MILC Agent shall inform the dairy operation of all MILC program eligibility requirements, the producer's responsibility to meet those eligibility requirements, and provide the producers in the operation with the necessary forms to complete such requirements.

5. MILC Agent shall facilitate communication between CCC and the producers of the dairy operation.

6. MILC Agent shall disburse payments to the dairy operation in the producer's monthly milk check or in an otherwise approved manner.

7. The FSA County Committee shall provide supervision for the MILC Agent as it deems appropriate.

8. Each MILC Agent is subject to audit and shall maintain and retain records of the operation of their dairy cooperative or milk handling organization and make such records and facilities available to FSA representatives.

9. CCC may require proof that the appropriate MILC program benefits were disbursed to the producers in the dairy operation in their milk checks and any determination by CCC that such funds were not disbursed to the producers in Item 7 of Part A of this application shall result in CCC immediately terminating this Agreement.

10. The MILC Agent will not adopt any scheme or device to circumvent the purpose of the MILC program regulations of this Agreement.

11. This Agreement may be terminated by either party or by the producers involved in the dairy operation indicated in Item 5 of Part A of this application at any time upon 30 days notice to the County FSA Office indicated in Item 6 of Part A of this application.

12. The MILC Agent shall hold CCC harmless from any claim made against CCC in connection with any MILC payment or other activity carried out by the MILC Agent which is not in accordance with the terms and conditions of this Agreement as they correspond to the dairy operation indicated in Item 5 of Part A of this application.

13. CCC may terminate this Agreement without providing 30 days notice if CCC determines that the MILC Agent failed to meet the terms and conditions of this Agreement.

14. The MILC Agent shall furnish all necessary program documentation requested by the FSA including verified adjusted gross income documentation for the producers.
The following is an example CCC-582, page 3.

IT IS FURTHER AGREED that this Agreement and approval as a MILC Agent does not make the MILC Agent a Federal employee or an agent of CCC or the United States Government. It is agreed that this Agreement and the approval as a MILC Agent shall remain effective until terminated at any time by CCC or the MILC Agent or the producers of the dairy operation for whom the MILC Agent is acting. The MILC Agent shall cease obtaining or disbursing MILC benefits upon receiving from CCC a notice of termination.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the date set forth above.

A MILC Agent Responsibilities

Approved MILC agents are responsible for the following:

- completing CCC-580 on behalf of the producers in the dairy operation they are representing
- submitting completed CCC-580 to the appropriate County Office for approval
- providing to the appropriate County Office for processing the dairy operations:
  - monthly production evidence
  - other documentation or forms completed by the producer, as required by CCC
- facilitating communication of program requirements between CCC and producers in the dairy operation
- familiarizing themselves with MILC program policy and procedures as outlined in any program regulations, handbooks, amendments, notices, or instructions issued by DAFP
- receiving dairy operations MILC payment from CCC
- disbursing MILC payments to the dairy operation in the producer's monthly milk check or an otherwise approved manner.

Note: Alternate methods of disbursing payments to producers, other than through the dairy operation’s monthly milk check, **must** be requested, in writing, to the appropriate County Office and approved **before** using the alternative method.
Responsibilities (Continued)

B Producer Responsibilities

Dairy producers who authorize a MILC agent to act on their behalf are responsible for fulfilling all program eligibility requirements provided in the following:

- regulations in 7 CFR Part 1430
- directives issued by DAFP.

The producer, not the MILC agent, is responsible for certifying compliance with HELC and WC provisions on AD-1026.

C County Office Responsibilities

County Offices are responsible for the following:

- communicating to the MILC agent program requirements
- ensuring that MILC agent has been granted power of attorney on FSA-211 for all producers in the operation
- obtaining approval or disapproval of CCC-582 from COC or designee
- providing necessary supervision for the MILC agent
- assigning producer payments to MILC agents after a completed CCC-36 is received in the County Office
- issuing program payments to the MILC agent
- obtaining approval of alternative methods of disbursing payments to producers from the National Office through the State Office.
D State Office Responsibility

State Offices are responsible for the following:

- uniformly applying MILC agent policies by County Offices
- forwarding recommendations or requests of alternative methods of disbursing payments to producers to the National Office for approval or disapproval.

E Terminating MILC Agent Agreements

MILC agent agreements may be terminated at any time upon 30 calendar days notice, in writing, to the County Office by any of the following:

- CCC
- MILC agent
- dairy operation.
A Violating Terms and Conditions

When signing CCC-580, MILC program participants are agreeing to CCC-580 Appendix terms and conditions. If it is determined that a producer or operation has violated any MILC program terms and conditions, COC may initiate any of the following actions:

- terminate CCC-580 for the remainder of FY in which the violation occurs and allow the producer or operation to retain any payments received under the program

  **Note:** If CCC-580 is terminated the participant forfeits **all** rights to further program benefits.

- allow CCC-580 to remain in effect and require the producer or operation to repay a portion of the payments received commensurate with the violations severity.

In either case as appropriate, and in addition to other administrative actions that may apply, it may be determined by COC to collect back all payments disbursed to the producer or dairy operation in whole or in part.

**Note:** COC shall document program violation cases in the COC minutes.
B Non-Severe MILC Violations

Non-severe violations include, but are **not** limited to the following:

- failure to comply with CCC-580 terms and conditions of the and any applicable addendum
- illegitimate reconstitutions determined by COC
- reconstitutions of the dairy operation for the sole purpose of receiving multiple program benefits
- failure to comply with HELC and/or WC provisions
- failure to comply with controlled-substances provisions
- failure to meet the definition of a dairy operation according to paragraph 10
- any action that tends to defeat the purpose of the MILC program, as determined by CCC.

**Note:** Any non-severe violation may be determined severe by COC depending on the extent of the occurrence.
C Severe Violations

Severe violations include, but are **not** limited to the following:

- falsifying production evidence
- adulterating production
- misrepresentation, scheme, or device
- any other cases that involve illegal activity, such as fraud.

D Other Administrative Actions

Funds disbursed to producers or operations engaged in a program violation, as determined by CCC, may in addition to the remedies described in this paragraph be subject to the following:

- refund to CCC
- civil remedies
- criminal remedies
- administrative remedies.

E Scheme or Device

State and County Offices shall see 1-PL, paragraph 71, for guidelines and rules for determining and detecting a scheme or device.
71  CCC Action and Authority

A  DAFP Authority

In addition to the actions described in this Part, DAFP may:

- terminate any CCC-580 by mutual agreement upon request of the participant, if DAFP determines that termination is in the best interest of the public

- determine that failure of the dairy operation to perform CCC-580 terms and conditions does not warrant termination and may require the participant to do either of the following:
  - refund part of the payments received
  - accept adjustments in the payment as DAFP determines to be appropriate.

B  STC Action

STC’s shall ensure that COC’s remedy violations equitably based on the merits and facts involved in the violation.

C  COC Action

COC’s shall use their best judgment when determining the most appropriate and equitable remedy to each occurrence of a violation based on the merits and facts involved in the violation.

Definitions of Terms Used in This Handbook

Class I Milk

Class I milk is milk, including milk components, classified as Class I milk under a Federal milk marketing order issued by AMS.

Commercially Marketed Milk Production

Commercially marketed milk production is a marketing of milk for which there is verifiable sales or delivery record of milk marketed for commercial use.

Contract Period Payment

Contract period payments means all monthly payments made under MILC.

Dairy Operation

A dairy operation is any person or group of persons who, as a single unit as determined by CCC, produce and market milk commercially produced from cows, and whose production and facilities are located in the U.S.

Eligible Dairy Operation

An eligible dairy operation, for MILC program purposes, is any person or group of persons who, as a single unit as determined by CCC, produce and market milk commercially produced from cows and whose production facilities are located in the U.S.

Eligible New Dairy Operation

An eligible new dairy operation is any dairy operation purchased by a producer not affiliated with any dairy operation:

- that received a DMLA-III payment
- with an approved CCC-580 with CCC.
Definitions of Terms Used in This Handbook (Continued)

Eligible Producer

An eligible producer, for MILC program purposes, is any individual, group of individuals, partnership, corporation, estate, trust association, cooperative, other legal business enterprise, or other legal entity who is, or whose members:

- are a citizen of, or legal resident alien in the U.S., except as provided in subparagraph E
- directly or indirectly share in the risk of producing milk
- make contributions (including land, labor, management, equipment, or capital) to the dairy farming operation of the individual or entity that are at least commensurate with the share of the individual or entity of the proceeds of the operation.

Production Start Month Definition

The production start month, selected by the dairy operation and designated on the CCC-580, is the month for which CCC will begin payments to the dairy operation starting with the selected month and based on the selected months commercially marketed production.
The following is an example CCC-580 Appendix.

APPENDIX TO FORM CCC-580, MILK INCOME LOSS CONTRACT

1 DEFINITIONS

The following definitions are applicable to the extension of the Milk Income Loss Contract (MILC) Program:

A Administrator means the FSA Administrator.

B Contract application means Form CCC-580, the Milk Income Loss Contract (MILC).

C Contract application period means the date established by the Deputy Administrator for producers to apply for program benefits.

D CCC means the Commodity Credit Corporation.

E Class I Milk means milk, including milk components, classified as Class I milk under a Federal milk marketing order.

F County Committee means the FSA county committee.

G County Office means the local FSA office.

H Dairy Operation means any person or group of persons who as a single unit as determined by CCC, produce and market milk commercially produced from cows and whose production facilities are located in the United States.

I Dairy Feed Price Adjustment—For the period January 1, 2008 through August 31, 2012, if the National Average Dairy Feed Ration Cost for a month during that period is greater than $7.35 per hundredweight, the amount used to determine the payment rate shall be increased by 45 percent of the percentage by which the National Average Dairy Feed Ration Cost exceeds $7.35 per hundredweight. For any month beginning on or after September 1, 2012, if the National Average Dairy Feed Ration Cost for a month during that period is greater than $9.50/cwt, the payment rate will be increased by 45 percent of the percentage by which the National Average Dairy Feed Ration Cost exceeds $9.50/cwt. The National Average Dairy Feed Ration cost will be determined in accordance with the program regulations.

J Department or USDA means the United States Department of Agriculture.

K Deputy Administrator means the Deputy Administrator for Farm Programs (DAFP), Farm Service Agency (FSA) or a designee.

L Eligible Production means milk that was produced by cows in the United States and marketed commercially by a producer in a participating State.

M Farm Service Agency or FSA means the Farm Service Agency of the Department.

N Federal Milk Marketing Order means an order issued under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.

O Fiscal Year means the year beginning October 1 and ending the following September 30. For example, the 2009 fiscal year begins October 1, 2008, and ends on September 30, 2009.

P Marketed commercially means sold to the market to which the dairy operation normally delivers whole milk and receives a monetary amount.

Q Milk handler means the marketing agency to or through which the producer commercially markets whole milk.

R MILC means the Milk Income Loss Contract.

S Milk Income Loss Contract or CCC-580 means the program documents including the applicable contract appendix, entered into between CCC and the participant. Such contract shall set forth the terms and conditions for participation in the MILC program and receipt of MILC payments.
T  Milk Marketing means a marketing of milk for which there is a verifiable sales or delivery record of milk marketed for commercial use.

U  Participating State means each of the 50 States in the United States of America, including the District of Columbia, and the Commonwealth of Puerto Rico, or any other territory or possession of the United States (7 CFR 1430.202).

V  Payment Pounds means the pounds of milk production for which an operation is eligible to be paid up to a maximum of 2.4 million pounds per dairy operation per fiscal year for the 2008 fiscal year and 2,985,000 pounds per fiscal year for the 2009-2012 fiscal years provided further that an operation may receive payment for September 2012 marketings only if pre-September 2012 FY marketings did not exceed 2,400,000 pounds in which case new marketings that would not put the operation's 2012 FY marketings over 2,400,000 pounds will be eligible for payments otherwise permitted under the MILC regulation.

W  Producer means any individual, group of individuals, partnership, corporation, estate, trust association, cooperative, or other business enterprise or other legal entity who is, or whose members are, a citizen of, or legal resident alien or aliens in the United States, and who directly or indirectly, as determined by the Secretary, shares in the risk of producing milk, and makes contributions (including land, labor, management, equipment, or capital) to the dairy farming operation of the individual or entity that are at least commensurate with the share of the individual or entity of the proceeds of this operation.

X  Secretary means the Secretary of the United States Department of Agriculture or any other officer or employee of the Department who has been delegated the authority to act in the Secretary's stead with respect to the program established in the part.

Y  United States means the 50 States of the United States of America, the District of Columbia, and the Commonwealth of Puerto Rico, and any other territory or possession of the United States. (7 CFR 1430.202).

Z  Verifiable Production Records means evidence that is used to substantiate the amount of production reported and that can be verified by CCC through an independent source.

AA  All other words and phrases, unless the context of subject matter otherwise requires, shall have the meanings assigned to them in the regulations governing the Milk Income Loss Contract Program which are found at 7 CFR Part 1430.

2  ELIGIBILITY REQUIREMENTS FOR MILC PROGRAM

A  By signing the MILC, the participant certifies that such participant produced milk commercially in the United States and marketed such production anytime during the period from October 1, 2007, through September 30, 2012. The participant agrees to provide monthly milk production and evidence of such production commercially marketed by all persons in the dairy operation during the program period, to determine the total pounds of milk that will be converted to hundredweight (cwt), and subsequently used for determining payment eligibility. Such production evidence must be provided before CCC will issue a payment to the dairy operation. (7 CFR 1430.203).

B  The dairy operation must comply with highly erodible land and wetland conservation provisions set out at 7 CFR Part 12, adjusted gross income provisions at 7 CFR Part 1400, and all other provisions prescribed in the Milk Income Loss Contract program regulations at 7 CFR Part 1430. With respect to adjusted gross income, no person or entity may receive a payment for FY 2009 or subsequent marketings if their adjusted gross nonfarm income for the relevant base period for the marketings as determined under part 1400 is, as determined under that part is over $500,000. Further for entities an otherwise due payment will be reduced commensurately to the extent that any person with an interest in the entity, as determined under AGI regulations, had such income over that limit for the relevant period.

C  In order to receive payment the operation must have submitted a contract during the applicable contract period for FYs 2008-2012. The operation must have for any fiscal year for which payments is sought to be paid submitted the FY 2008-2012 contract before the end of that fiscal year. Further, to be eligible for payment, the dairy must not, if it did not participate in the MILC program for fiscal years prior to FY 2008, be affiliated with any other dairy operation.
3 RESTRICTIONS ON PAYMENTS TO FOREIGN PERSONS

A Any producer who enters a MILC with CCC or participates in such contract at any time who is not a citizen of the United States or an alien lawfully admitted into the United States for permanent residence under the Immigration and Nationality Act (8 U.S.C. 1101, et seq.) shall be ineligible to receive monthly payments under this contract unless such person meets the requirements of 7 CFR Part 1400 which shall be applicable to this contract.

B Persons succeeding to a MILC must notify CCC immediately of succession and the contract must be modified accordingly.

4 SELECTION OF STARTING MONTH PROVISIONS

A A dairy operation that enters into a MILC with CCC, must designate for each fiscal year covered by the contract the starting month for the CCC to consider marketings to be eligible for consideration for payment.

The starting month selected by the dairy operation must be made on or before the 14th of the month before the month for which payment is sought. (7 CFR 1430.205(a)).

Beginning with the month selected by the dairy operation, MILC payments for the fiscal year will be issued based on the selected month's production and production for each consecutive month thereafter with a payment rate in effect until the earlier of the following:

1. the maximum payment quantity for the fiscal year is reached; or
2. the applicable fiscal year ends.

B Except as provided in subparagraphs F and G of this section, a dairy operation cannot select a month for payment for which the following has occurred:

1. The month has already begun provided further that a month must be selected by the 14th of the preceding month;
2. The month has already passed; or
3. No milk production was produced by the dairy operation.

C Dairy operations cannot change the selected starting month for the fiscal year unless the change is made with CCC on or before the 14th of the month before the month selected. Otherwise, the starting month selected by the dairy operation cannot be changed in the MILC until the next fiscal year. If the starting month selected by the dairy operation is never modified from the initial selection, the selected month will remain the same for each fiscal year throughout the duration of the contract. (7 CFR 1430.205(a)). That is, once a month is chosen for a fiscal year, the corresponding month will be the start month for subsequent fiscal years unless affirmatively changed by the operation.

D Payments will be made consecutively to the dairy operation on a monthly basis for the fiscal year after the starting month has been designated in the MILC until the earlier of the following:

1. The maximum payment quantity for the fiscal year is reached; or
2. The end of the fiscal year.

E All producers involved in the dairy operation must agree to the month designated in the MILC that CCC will issue payments. The dairy operation assumes the risk of not reaching the maximum payment quantity based on the month selected by the dairy operation. Payments will not be issued for past months for the sole purpose of reaching the maximum payment quantity, when the starting month was erroneously or otherwise selected by the dairy operation.

F For FY 2009, if the contract is submitted within 30 days of the time at which CCC begins accepting contracts for the FYs 2008-2012 program, the dairy operation can select any preceding month as the FY 2009 start month or choose a start month according to the normal standards that apply.

G When the FYs 2008-2012 contract is submitted, the dairy operation may, in lieu of other rules that apply, pick the month in which the contract is submitted as the start month for the fiscal year in which the contract is submitted.
5 DAIRY OPERATION PAYMENT QUANTITY

A The applicant's payment quantity of milk will be determined by CCC, based on the quantity of milk that was produced and commercially marketed by each dairy operation each month per FY.

B The maximum quantity of eligible production for which dairy operations are eligible for payment per fiscal year under the Milk Income Loss Contract Program regulations shall be for FY's 2009-2012 - 2,985,000 pounds or 29,850 hundredweight per separate and distinct operation provided further that an operation may receive payment for September 2012 marketings, only if pre-September 2012 FY marketings did not exceed 2,400,000 pounds in which case new marketings that would not put the operation's 2012 FY marketings over 2,400,000 pounds will be eligible for payments otherwise permitted in this rule.

C The Deputy Administrator shall determine what may be considered a separate and distinct operation.

6 PAYMENT RATE AND DAIRY OPERATION PAYMENT

A Payments under the MILC may be made to dairy operations when the Boston Class I milk price for the relevant month under the applicable Federal milk marketing order is below $16.94 per hundredweight. No payments will be made to dairy operations during the months that the Boston Class I milk price under the applicable milk marketing order equals or exceeds $16.94 or a rate adjusted for the National average dairy feed ration cost.

B A per hundredweight (cwt) payment rate will be determined for the applicable month by:

1. Subtracting from $16.94 the Class I milk price per hundredweight in Boston;
2. Multiplying the difference by 34 percent during the period beginning on October 1, 2007, and ending on September 30, 2008;
3. Multiplying the difference by 45 percent during the period beginning on October 1, 2008, and ending on August 31, 2012;
4. Multiplying the difference by 34 percent for September, 2012.

C The payment rate as calculated in accordance with paragraph B, will be adjusted to compensate for feed prices when the National Average Dairy Feed Ration Cost for a month is greater than the levels set forth below. Generally, the National Average Dairy Feed Ration Cost per cwt., for each month shall as determined under the program regulations be calculated using the same procedures used to calculate the feed components of the estimated price of 16 percent Mixed Dairy Feed per pound as noted in the USDA monthly Agricultural Prices publication of March, 2008. The payment rate adjustment for feed prices will be determined by increasing $16.94 by the percentage which is 45 percent of the percentage by which the National Average Dairy Feed Ration Cost exceeds $7.35 per cwt., ($9.50 per cwt., for MILC marketings in 2012).

D Each eligible dairy operation payment will be calculated, as determined by CCC, by:

1. Converting whole pounds of milk to hundredweight (cwt); and
2. Multiplying the payment rate determined in paragraphs B and C of this section by the quantity of eligible production marketed by the operation during the applicable month as determined.

E Payments under the Milk Income Loss Contract Program regulations may be made to a dairy operation only up to the quantity of eligible production per applicable fiscal year as described in Section 5.

F Participants will receive payments on a monthly basis according to the MILC, not later than 60 days after the production evidence for the applicable month is received or the dairy feed adjusted rate is posted, whichever is later. However, CCC will endeavor to make the payment where possible within 60 days of the end of the month of the marketing.
7 PROOF OF PRODUCTION

A. Dairy operations entering into a MILC with CCC must, in accordance with instructions issued by the Deputy Administrator, provide adequate proof of the dairy operation’s eligible production during the applicable months of each fiscal year designated in the contract. The dairy operation must also provide proof that the eligible production was commercially marketed during applicable months beginning October 1, 2007, and ending September 30, 2012. The documentary evidence of milk production claimed for payment shall be reported to CCC together with any supporting documentation to verify the claim.

B. CCC will issue a payment to the dairy operation no later than 60 days after the last day of the month that the production evidence is provided to the county FSA office or the date the feed rate adjustment is posted, whichever is later. However, CCC will endeavor to make the payment where possible within 60 days of the end of the month of the relevant marketings.

C. Dairy operations must provide their final production evidence by November 1, 2012.

8 MILC AGENT PROVISIONS

A. Milk Income Loss Contract payments may be disbursed by a cooperative marketing association that serves the Amish community or other special groups. Producers in such groups in a dairy operation may authorize an agent of a cooperative marketing association or milk handler affiliated with a cooperative marketing association to obtain and disburse MILC payments to the operation.

B. The authorized Milk Income Loss Contract agent must on behalf of the dairy operation do the following:

1. Obtain a power of attorney for the producers of the dairy operation that authorizes the agent to enter into a MILC;
2. File form prescribed by CCC, for approval by CCC, to act as a MILC agent;
3. Provide the dairy operation’s monthly production evidence to the applicable FSA county office;
4. Disburse payment to the dairy operation in the producers monthly milk check.

9 EFFECTIVE DATE AND CHANGES TO CONTRACT

A. The MILC is effective when, as determined by CCC, it has been signed by the participants and an authorized representative of CCC. Except as otherwise determined by CCC, as permitted by regulations or other law, the MILC may not be revoked or revised unless by mutual agreement between parties. If, after the effective date of this contract, CCC determines that certified production was erroneously provided or any provision prescribed in the regulations at 7 CFR Part 1430 was violated, CCC may terminate the contract according to such regulations.

B. Except as provided in Section 6, contracts entered into by producers in a dairy operation shall cover eligible production marketed by the producers in a dairy operation during the period beginning with the first day of the month the producers in the dairy operation enter into contract and ending on September 30, 2012.

C. In the event that a statute is enacted during the period of this Milk Income Loss Contract which would materially change the terms and conditions of this contract, the CCC may require the participants to effect between acceptance of modifications in the contract consistent with the provisions of such statute or termination of this contract.

10 CONTRACT MODIFICATIONS

A. Producers in dairy operations are required to notify their local FSA office immediately of any changes that potentially affect the terms, conditions, or participants under the MILC. Changes include, but are not limited to changes to the starting month to receive payment for the next fiscal year, death of producer on the contract, new member joining the operation, member exiting the operation, transfer of shares by sale or other transfer action, or reconstitutions.

B. CCC may modify a MILC if it is determined that such modifications are desirable to carry out purposes of the program or to facilitate the program’s practical administration.

C. The contract producer as designated to FSA on or for the contract has authority to make authorized changes to applicable Milk Income Loss Contract program forms prescribed by FSA and to bind other producers on the contract to those changes.
11 NOTIFICATION OF CHANGES TO TERMS AND CONDITIONS OF THE CONTRACT

CCC agrees that, if any changes of any terms and conditions of this contract become necessary prior to the date that this contract is approved on behalf of CCC, CCC will notify the producers signing the MILC of such change and such producer will be given 10 days from the date of notification in which to agree to the revised terms and conditions or to withdraw from the offer. The participant agrees to notify the CCC of an intention to withdraw from the offer within 10 days from the date of the issuance of such notice and further agrees that failure to notify the CCC will constitute agreement to the revised terms and conditions.

12 TERMINATION OF CONTRACT

If a participant fails to carry out the terms and conditions of this contract but CCC determines that such failure does not warrant termination of this contract, CCC may require such participant to refund, with interest, payments received under this contract, or require the participant to accept such adjustments in the subsequent payment as are determined to be appropriate by CCC. Interest shall run on all refunds from the date of CCC disbursement.

13 CORRECTIONS

CCC reserves the right to correct all errors in entering data or the results of computations in the contract.

14 ERRONEOUS REPRESENTATION AND SCHEME AND DEVICE

A A participant who is determined to have erroneously represented any fact affecting a determination with respect to this MILC and regulations applicable to this contract, adopted any scheme or device which tends to defeat the purposes of this contract, or made any fraudulent representation with respect to this contract will not be entitled to payments or any other benefits made in accordance with this MILC and the participant must refund to CCC all payments received by such participant, plus interest with respect to the MILC.

B Unless CCC regulations provide otherwise, refunds determined to be due and owing to CCC in accordance with this MILC will bear interest at the rate which CCC was required to pay for its borrowing from the United States Treasury on the date of disbursement by CCC of the monies to be refunded. Interest will accrue from the date of such disbursement by CCC.

C The remedies provided under Section 14 of this Appendix shall be applicable in addition to any remedies under criminal and civil fraud statutes, including 18 U.S.C. 268, 287, 371, 641, 1001; 15 U.S.C. 714m; and 31 U.S.C. 3729, or any other remedy available under law.

15 REGULATIONS TO PREVAIL

The regulations in 7 CFR Part 1430 for the Milk Income Loss Contract Program are incorporated herein. In the event of a conflict between these regulations and the terms of this Appendix, the provisions of the regulations will prevail, provided further that a payment may be made only if allowed by both the contract (including this appendix) and the program regulations.

16 RECONSTITUTIONS

A A dairy operation entering into a MILC shall not after October 1, 2007, reorganize the dairy operation for the sole purpose of receiving more than one payment.

B Dairy operations that reorganize or restructure the operation for legitimate purposes after October 1, 2007, are subject to review by the applicable FSA county committee.

C If it is determined by the FSA County Committee that a dairy operation has reorganized for the sole purpose of receiving additional payments under the Milk Income Loss Contract Program, the operation will be considered in violation of their MILC and subject to termination according to Section 12.
If during the contract period a reconstitution occurs, the modification to the MILC will not take effect until the first day of the fiscal year following the month the FSA county office received notification of the changes.

AGREEMENT

A. The participant agrees:

1. That the CCC-580 and any addendum thereto shall be considered an offer to enter into the Milk Income Loss Contract Program on the terms specified on Form CCC-580 and any addendum thereto. The offer, until revoked, may be accepted by CCC provided further, that, liquidated damages may apply in the case of a revocation as specified elsewhere in this Appendix;

2. To provide monthly milk production commercially marketed by all producers in the dairy operation throughout the duration of the program period that payment eligibility calculation can be made;

3. To submit adequate evidence of production of the dairy operations eligible marketings during the months of each fiscal year designated in the contract;

4. To have all producers involved in the dairy operation, marketing milk during the period specified in the MILC to sign the contract and indicate shares in the operation;

5. To designate the start month the dairy operation wants CCC to begin issuing payments to the operation;

6. To comply with highly erodible land and wetland conservation provisions and complete Form AD-1026 accordingly;

7. Not to undertake any action which tends to defeat the purposes of this contract, as determined by CCC;

8. Not to reconstitute the dairy operation for the sole purpose of receiving additional Milk Income Loss Contract payments;

9. Notify CCC immediately of any changes that affect the organizational structure of the dairy operation.

10. Any payment or portion thereof due any participant will be made by CCC without regard to any question of title under State law, and without regard to any claim or lien which may be asserted by a creditor, except agencies of the U.S. Government. Offsets for debts owed to agencies of the U.S. Government shall be made prior to making any payments to participants or their assigns.

11. To comply with all terms and conditions contained in this Appendix and the prescribed regulations at 7 CFR Part 1430.

B. CCC agrees, subject to the availability of funds, that contract (including this appendix), the regulations and changes in law, to pay to the participant, to the extent required by the applicable authorities, the agreed upon monthly payment, to be made divided based upon the shares to which the parties have agreed as set forth on Form CCC-580.
